

COMPARISON OF XD-2 and MINI XD-2

The MINI XD-2 is an enhanced model of the well established and battle tested XD-2 Explosives Detector. The two models complement each other as the XD-2 has been tested and proved reliable around the world for many years. The new MINI XD-2 has some new features and is more compact and rugged. Both are available.

How the MINI XD-2 differs from the original XD-2:

- Water/air tight
- More Compact
- New proprietary solutions for greater sensitivity for all explosives
- Programmed for sequential additions of three test solutions to capture all military and commercial explosives, including black powders, mining gels, gun propellants, most homemade explosives and fireworks
- New proprietary swipes, heater, and heating cycle program
- All metal design
