

Eco Sensors

Division of KWJ Engineering Inc.

DO3

Portable Dissolved Ozone Detector

- 0.00-5.00ppm Dissolved Ozone
- User replaceable battery; Portable power for months of detection
- Stores up to 10 readings for remote sampling
- Simple and repeatable bottle sampling method
- No fouling of the sensor; No special probes
- Digital Display; No Consumables, No Chemistries, No Color Matching

Available
Immediately!

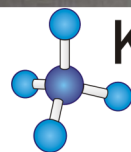

Nanotechnology enabled electrochemical sensor makes dissolved ozone testing fast, simple, and inexpensive!
